

This is my homework. A online book store, designed by Html+Css and Php+Sql.

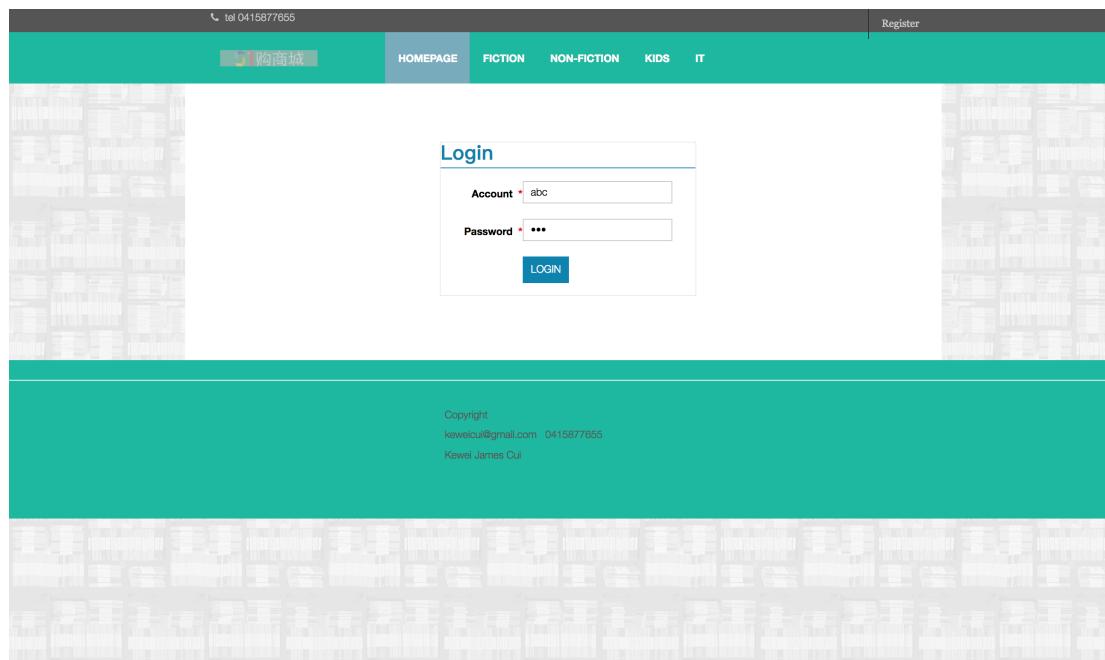

Home Page

It has login/register function, search engine, checkout function.

4 categories included (Fiction, non-fiction, Kids and IT)

The screenshot displays the homepage of an online book store. At the top, there is a navigation bar with links for 'HOME PAGE', 'FICTION', 'NON-FICTION', 'KIDS', 'IT', 'Content', and a search bar. The main content area features a photograph of a well-stocked bookstore interior. To the right, a 'TODAY RECOMMEND' section highlights the book 'What Happened' by Hillary Rodham Clinton, showing its cover, price (\$35.99), and a 5-star rating. Below this, there are four other book covers: 'The Barefoot Investor' by Scott Pape, 'I'm Australian Too' by Mem Fox, 'The Ministry of Utmost Happiness' by Arundhati Roy, and 'Taming Toxic People' by David Gillespie. The 'New Arrived' section shows ten book covers with their titles and brief descriptions. The 'HOT DEAL' section features three books: 'Java', 'The Little Book of Big Weightloss', and 'Colombiano'. The 'RECENT ACTIVITY' section contains a large yellow banner with Chinese text advertising discounts: '满100减30 满200减60 满300减100' (discounts apply to purchases over \$100, \$200, and \$300 respectively). The footer includes copyright information: 'Copyright keweicui@gmail.com 0415877655 Kewei James Cui'.

PROJECT DESCRIPTION

Click on the Google Preview image above to read some pages of this book! Booktopia Comments Click here to read a letter from Scott Page about the 2017 Update edition of The Barefoot Investor Product Description This is the only money guide you'll ever need. That's a bold claim, given there are already thousands of finance books on the shelves. So what makes this one different? Well, you won't be overwhelmed with a bunch of 'tips' ... or a strict budget (that you won't follow). You'll get a step-by-step formula: open this account, then do this, call this person, and say this; invest money here, and not there. All with a glass of wine in your hand. This book will show you how to create an entire financial plan that is so simple you can sketch it on the back of a serviette ... and you'll be able to manage your money in 10 minutes a week.
